“Lead From Where You Are”

“I’m just”...It’s a phrase we hear all the time. I’m just a teacher, I’m just a paraprofessional, I’m just a custodian....the list is long and is often followed by reasons something CAN’T happen. Leadership is an action and it starts with you. Leading with INTENTION creates purpose. Leading with CONNECTION creates momentum. Leading with DIRECTION creates collective efficacy. Leading with all three in mind will build your capacity and foster an environment where everyone in your organization has the best opportunity to lead from where they are.

“Lead by Example”

The mark of a great leader lies in their ability to "walk the talk." To lead by example means to guide others through your behavior as opposed to your words. Your intention is to inspire others to follow your example. The opposite of leading by example would be to "say one thing and do another." Dr. Brown humorously and insightfully demonstrates how leading by example can increase trust and team engagement. Participants will understand how individual leaders can positively influence the behavior and attitudes of others. Today's workforce wants to see that your actions mirror what you say.
